Steve:

This is not acceptable. Project work does not stop without coordinating that with the EPA. In fact, this has been done many times and I have overlooked it but it will no longer be tolerated. I want the weeklies to be sent timely and that it be an accurate reflection of what is going on or not going on. I am being told you guys are working on plans and operations to remove the roofs to remove the remainder of the sludge and you guys are not doing anything. I am tired of the deception

If you need to get this property sold to get the work done then the owner needs to move on it. I don't care if he makes a dollar off the property. He certainly will not if we take over the project which I am very close to recommending.

Thanks

Gary,

I spoke with Mr. Bergner and he too is frustrated by the situation. Unfortunately due to the sale not going through last week we did not performed any on-site activities last week. We anticipated the sale and were looking to Blue Dolphin (Lazarus) to provide approvals of our specific work requests.
